## ST ANDREWS RESTAURANT - MELBOURNE

THE LEADING COMMERCIAL UPHOLSTERY RESOURCE

THE LEADING COMMERCIAL UPHOLSTERY RESOURCE

## ST ANDREWS RESTAURANT, BRIGHTON Designer and part owner; Paul Hannan.

**DESIGN VISION:** The look of the 1850s building has been juxtaposed with a contemporary and fresh interior using cool colours, modern furnishings and fittings. Traditional details like timber paneling and floors have been retained and created into features.

**FURNITURE:** Slim backed dining chairs were customised and the height of the banquette seating was extended. The upholstery fabric chosen was a sensual faux suede which is ideal for restaurants

because it's dirt repellent. Chair frames are Victorian Ash, stained and polished to match the other timber features in the restaurant.

**A GREAT FINISH:** This Sunday school hall has been renovated into a smart, sophisticated restaurant in tune with today's interior design fashion. It retains the period nobility of the building but with the added drama of contemporary style and finishes.
