STADIUM AUSTRALIA - SYDNEY

THE LEADING COMMERCIAL UPHOLSTERY RESOURCE

THE LEADING COMMERCIAL UPHOLSTERY RESOURCE

STADIUM AUSTRALIA PLATINUM DINING, HOMEBUSH

Interior: Forbes & Harris; Allan Harris.

DESIGN VISION: The interiors drew inspiration from the historic site. It was the state's largest stock yard where farmers brought cattle and sheep for sale from all over New South Wales. The colours were to echo the eucalyptus and the dam waters that were a feature of the truly Australian heritage spot.

FURNITURE: All the furniture had to comply with the Olympics Charter, it had to be manufactured from sustainable materials and made in Australia. The custom designed models include bar stools and chairs for the Platinum dining room. The dining

chairs are comfortable with generous proportions and a Victorian Ash frame. The bar stools are Nubuck leather with a soft feel but robust wear. Over time this leather develops a lovely, soft patina.

A GREAT FINISH: The dining chairs and bar stools have a pleasant simplicity yet sturdiness which evokes physical strength. The textile designs in the interior seem organic and fluid. They tie in well with the Australiana flora and fauna feel achieved by combining great hides and wool-rich textiles in eucalypt and earthy shades.
