CROWN TOWERS - MELBOURNE

THE LEADING COMMERCIAL UPHOLSTERY RESOURCE

CROWN ENTERTAINMENT COMPLEX, SOUTHBANK

Interior: Bates Smart; Jeff Copolov.

DESIGN VISION: The objective was to create an exciting urban entertainment complex, combining five star hotel facilities, bars and restaurants, shopping precinct, live entertainment and casino facilities. All the furniture in the complex had to provide guests with the impression of a magnificent international destination.

FURNITURE: Moran Contract supplied custom made and standard range furniture for both the hotel and the casino areas. The design brief for furniture in general was that it must be suitable for its end use, be functional and robust where required, and above all else must be comfortable

and enduring in style. Sofas, guest room furniture, gaming stools and chairs, tub chairs, restaurant and bar furniture and public area furniture were custom designed. The furniture had to be delivered within stringent budget parameters and a tight manufacturing programme.

A GREAT FINISH: Crown Entertainment Complex is the jewel in the crown of Southbank with an international casino, the entertainment complex and the Crown Towers hotel. The interiors of the complex carry an elliptical motif through the furnishings and lighting.
