## LE MERIDIEN - SYDNEY

THE LEADING COMMERCIAL UPHOLSTERY RESOURCE

THE LEADING COMMERCIAL UPHOLSTERY RESOURCE

## LE MERIDIEN, SYDNEY Interior: Wilson and Associates; Michael Fiebrich.

**DESIGN VISION:** Furniture was chosen for clean lines and sculptural silhouettes. The upholstery was designed for a very tailored, trim look. The resulting combination is very eclectic, even whimsical at times, but always elegant and luxurious.

**FURNITURE:** The custom designed pieces range from deep, plush lounges and chairs to slick, city style furniture for restaurants, bars, public areas, the Meridien Club guest lounge, foyer and lobby. Bar stools have been designed to look like Spanish olives upholstered in leather with spun aluminium and cast metal bases. Dining chairs are

upholstered in rich tangerine velvet, boardroom chairs are upholstered in leather. For the guest rooms, sofas, sofa beds, chairs, ottomans were supplied. The chairs and ottomans have specially designed and manufactured traditional chrome castors.

**A GREAT FINISH:** The all new five star Le Meridien hotel has interiors with a modern, sophisticated contemporary elegance using playful fabrics and carpets. The result is a modern international hotel fitted out with unique furniture.
